

SPOTLIGHT

A Mono- Act Competition

Event Date: December 15, 2022 (classes 2 A, 2 B and 2 C)

December 16, 2022 (classes 2 D, 2 E and 2 F)

All the world's a stage and our little learners of Grade II took on to the stage with their acting skills in the Mono- Act Competition “ SPOTLIGHT” held in December 2023. The participants used their imagination vividly and wore colourful innovative costumes and used various creative props to present their mono-act. Voice modulation was a useful skill employed by these young actors to portray the various parts.

The mon-act was organized around different themes like – Save the Environment, Healthy Eating, Clean India, Green India, Any story of choice, etc.

The competition helped the children develop their personalities, acting, and recitation skills in addition to giving them a platform to display their talent and ingenuity. It made them look at drama as a form of language learning.

The traditional cue used for any film crew is "Lights, Camera, Action"; our little wonders were just as good as any actor on stage where there were lights, the teachers' cameras, and lots of action.

The children sparkled like stars.
