Dear Parents,

In order to assuage the apprehension of the parents which we respect about the potential danger of infection that may happen to vulnerable children, the school has decided to do something that will address this issue.

- The school will run offline as it is currently doing.
- Online Option is given to those parents who are apprehensive about sending their children to school.
- All the major subjects will be carried online for the benefit of the students whose parents feel that their children should study at home.
- This will be made operational for all Grades from I to VIII, with effect from 20.04.2022

NOTE: There will be only one online broadcast for one class; This arrangement will not cover every activity class as it is not physically viable.

Also note: all the students who have paid the Bus Fee, the same will not get refunded as it is a third party liability.
